**6 THE POLITICS OF MIDWESTERN MEAT: LABOR, BUSINESS, AND THE ENVIRONMENT**

Thursday, November 13, 7:30 p.m.; Indiana Memorial Union, Georgian Room

Led by Prof. Carl Weinberg.

Departmental Sponsors: Liberal Arts and Management Program (LAMP), Political And Civic Engagement, College of Arts and Sciences – Themester.

The modern meat industry, which revolves around giant slaughterhouses, feedlots, and Concentrated Animal Feeding Operations (factory farms), has always been the subject of controversy. It is rare, however, for the various parties to come together in one room face-to-face, to discuss issues including sustainability, plant working conditions, immigration, nutrition, human health, animal welfare, and contract farming. This event features a panel of speakers from Indiana and beyond with diverse and sometimes conflicting perspectives on these issues. They include representatives of the meat industry, labor unions, the sustainable farming movement, a state legislator, and an environmental activist. There will be brief presentations from each panelist and then an open discussion with the audience. Please join us for what is sure to be a thought-provoking evening. Refreshments served.
