1. **PACE COFFEE HOURS**
   Want to get involved in public life? Looking to diversify your curriculum? Curious about PACE? Members of the Political And Civic Engagement Student Leadership Council will be hosting "coffee hours" in the IMU Starbucks on Wednesday, March 5 from 2 p.m.-4 p.m., where students can feel free to stop by and discuss internships, community service projects, and other opportunities available through the PACE program. Current PACE students are encouraged to come discuss academic and professional opportunities as well. Look for future opportunities in the newsletter. The Political And Civic Engagement certificate program is guided by a commitment to intellectual diversity, rational exchange, open-mindedness, civility, and principled political and civic engagement. The certificate is a great match for any undergraduate student interested in learning more about what makes a democracy function, and how we can involve ourselves in civil society. The PACE certificate can be combined with any major offered by the College of Arts and Sciences, and many others in the Kelley School of Business, SPEA, the Ernie Pyle School of Journalism, and even the School of Informatics and Computing. We hope to see you there! For more information about PACE, visit: [http://pace.indiana.edu/](http://pace.indiana.edu/).

   *Health Care? Immigration? Climate Change? Same-Sex marriage? How do decisions on these and countless other major public issues get made in America?* This course provides an interdisciplinary introduction to public leadership and policy making in the
United States. Students will begin by exploring important theoretical and empirical studies of leadership styles and the relationship between American politics and civil society. Then they will examine examples of public leadership and sites of public policy making from the local community to the national capital. In each section, discussion about specific individuals and issues will be used to illustrate the role of leaders and particular institutions at every level of American public life. The course will conclude by asking students to blend their understanding of theory and practice in American public leadership and policy making by analyzing an important current issue individually and as a class. Throughout the course, students will also be introduced to the primary skills of effective engagement in political and civic discussion, deliberation, advocacy, and action.

- **PACE-C 295 Citizenship and Careers**, 2 cr., graded S/F, J Bergonzzi, 3:35-5:30 Wed., BH, required for PACE students to prepare for internship and career development, may be taken with C250 or right after, contact office for online authorization to enroll.

  "The privilege of a lifetime is to become who you truly are." ~ Carl Jung

  Taught in the classroom as well as through online work, students will bring the theories of the PACE program to the practice of citizenship skill development and career planning. The course will highlight the learning objectives of PACE while exploring individual style, personality type preferences through the Myers Briggs Type Indicator (MBTI), and individual strengths and values assessments. Students will assess personal goals and the use of PACE courses and their other undergraduate work as preparation for their remaining years of college and for post-college education, career, and political and civic engagement choices.

- **PACE-C 300, Issues in PACE: Democracy in Action**, 3 cr., L Napoli, 2:30-3:45 TR, BH: This course counts as an upper-level elective for the PACE certificate and toward the degree.

Interested in being a part of an elaborate class experience by participating in a role-playing game?* This course seeks to introduce students to core concepts of deliberative democracy while drawing students into the past, promoting engagement with big ideas, and improving intellectual and academic skills. Based on the Reacting to the Past (RTTP) curriculum, students will get a chance to go back in time and play out actual situations faced during some important turning points in U.S. history that shed light on current themes of political and civic engagement. Most class sessions are run by students while being advised and guided by course instructor. Students will receive a course grade based on their participation as well as their oral and written work. A possible choice for the role-playing game would be: Greenwich Village, 1913, concerning the ‘new men and women’ of the 20th Century.
